

Auditors Alliance

Join this unique forum for public sector internal and external auditors to:

- Share better practices
- Overcome common challenges in public sector auditing
- Facilitate partnerships for mutual learning and targeted co-operation, matching the needs and skills of different auditors and audit entities

Who can join?

All auditors from the public sector auditing profession are invited, including from:

- Internal audit bodies and internal audit organisations
- Supreme Audit Institutions (SAIs) and SAI organisations
- Sub-national internal and external audit entities

Note that the Alliance will not focus on financial statement auditing, but will explore all other areas of internal and external audit with a particular focus on performance, value for money, and compliance auditing.

Auditors Alliance

Upcoming activities

- **Self-assessment exercise:** The OECD will provide the opportunity to participate in a self-assessment exercise to determine strengths and capabilities, and to identify areas where audit entities could benefit from engaging with another audit entity through capacity-building activities or practitioner-to-practitioner secondment-type arrangements.
- **'Auditors without Borders':** The OECD will be conducting a pilot project to help audit entities match their needs and skills with other audit entities to develop partnerships for capacity building. The concept is similar to the joint OECD-UNDP initiative, *Tax Inspectors Without Borders*, which provides targeted assistance programmes between tax inspectors in different countries.
